Office Memorandum

Subject: Guidelines on Internship for Undergraduates pursuing five year integrated course in Law under the Centrally sponsored Scheme on "Improving Transparency and Accountability in government through effective implementation of Right to Information Act" for the year 2012-2013

1.0 Introduction

The Department of Personnel and Training (DOPT), Ministry of Personnel, Public Grievances and Pensions, Government of India, is the nodal Ministry for the Right to Information Act. It is administering a Plan scheme titled 'Improving Transparency and Accountability in Government through effective Implementation of the Right to Information Act'. The primary goal of the scheme is to contribute towards more accountable and transparent government and it has several components including programmes for awareness generation, training and e-governance initiatives for RTI for achieving the purpose.

An Internship Programme has been a felt need for the Ministries and Departments in the Government of India, which is beneficial both to the Departments and the interns. This will help the Ministry/ Department consolidate and document its experience in the implementation of RTI, its successes, constraints in implementation, identify the areas which need more attention, address the gap areas and suggest what more needs to be done to help achieve the objectives of the Act. The interns would be familiarized with the process of seeking information and enabling access to information under the RTI regime.

Under the scheme, DOPT is offering short-term internships to Undergraduates pursuing five year integrated course in Law to conduct an analysis of RTI Applications in select public authorities.

2.0 Areas of Study and Research Output

The RTI Internship is being offered to analyze a sample of the RTI applications received in the year 2011-2012 by select public authorities. The analysis of the applications would aim to get an overall picture of the applications received and do an indepth study of the information sought and the response by the CPIO/ Public Authority. Templates of the

expected outputs are enclosed. **Template I** covers the preliminary analysis of the Public Authority while **Template II** covers the detailed analysis of the selected RTI applications.

The work of the interns will be monitored through weekly interactions with the nodal faculty and officers from DOPT.
- d) The interns will be allotted in pairs to selected Public Authorities. The interns will report to a nodal officer of the selected Public Authority. They will be expected to work under the guidance of the nodal faculty and nodal officer of the Ministry concerned. The interns will spend **3(three)** weeks

to study and analyze the RTI applications and the last week for writing the report.

- e) The interns will be required to study the applications received by 5 CPIOs within the public authority which receive the maximum applications. They will be required to select randomly 20 applications from each CPIO for study. In case the Public Authority has only one CPIO the interns may study RTI applications received by 5 divisions.
